Annual Report 2020-21

Transition - The Photography Club

Our Mission

Transition Club focuses on providing a platform for students to acquire photography skills and showcase them with their peers.

Our Vision

Transition Club focuses on the inculcation and development of photography as a passion and/or a hobby in all the students of ADIS with the creativity or talent to do so.

Our journey would not have been possible without our valued teachers, dedicated office bearers, and the many members who helped our cause. Together we have coordinated events over the year, spread our vision throughout the students and created a supportive learning environment for our students.
